ROADMAP

The roadmap of iGOLD is clear and goal oriented.

Create a community and attract the largest possible number. Create the largest possible marketing campaigns. Add our currency to the largest trading platforms in the world

Wallet launch is an essential component for tokens. After that, the platform will be fully functional for the users with maximum benefits.

Launch iGold DEBIT CARDS

ABOUT Network

Binance Smart Chain is a new smart contract platform launched by Binance based on the Go Ethereum (Geth) client, making it compatible with blockchain apps developed for the Ethereum network

ABOUT Blockchain

Blockchain is a system of recording information in a way that makes it difficult or impossible to change, hack, or cheat the system. A blockchain is essentially a digital ledger of transactions that is duplicated and distributed across the entire network of computer systems on the blockchain.

WHY BINANCE SMART CHAIN?

Binance Smart Chain (BSC) was created to enable the use of solidity-based smart contracts at a significantly faster and more efficient rate than other competing chains. with decentralized exchanges on

BSC providing lightning-fast transactions and ultra-low costs, BSC has begun to establish itself as one of the most frequently utilized blockchains for Decentralized Finance (DeFi).
